SCHWUNG

SCHWUNG is a creative studio
with the heart of a collector
and the hands of a maker.
We imagine, design, build and
gather an endlessly evolving
family of desirable objects.

Globe Collection

The Globe collection reflects our journey exploring 19th and 20th Century French Brasserie lighting. By distilling the atmosphere to its purest forms, and envisioning its possibilities in the future. Glitter, beam, radiate or shimmer – an elaborate palette of combinations projects brass and glass into every interior space with a surprising touch.

Molecule Collection

Essential structures in infinite variations unveil the unseen forces shaping our world. The Molecule collection represents the diversity of atomic arrangement. Constructed with precision, bonds connecting in surprising geometries. The Molecule recalls the aesthetic of industry rendered in elegant fashion. A timeless reference, when the future has become our present.

Odyssey Collection

Machines frozen in motion, the Odyssey collection captures eventful journeys seen through a futurist lens. Solid brass rods create an open axis for structure, bisected by elegant arched cylinders. Neo-classical globes are arranged in even rows and honeycombs.

Classic Collection

Classic is a concept, a family of lamps inspired by the visual nature of glass and electric light. Rather than a collection, the Classic concept comprises an array of signature pieces realized with “soap bubble” glass and exposed bulbs.
